1. Open
Open the app link in Chrome → ⋮ → *Add to Home screen*.

2. Sign in once
Username + password. You stay signed in until you log out.

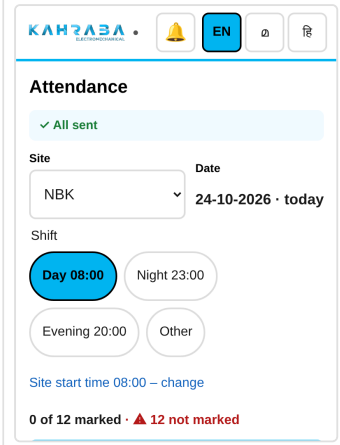

3. Language
Tap **EN** / ગુ / हि at the top of any screen.

4. No signal?
Keep working. The bar shows ● **Saved on phone** · **N waiting**; it sends by itself.

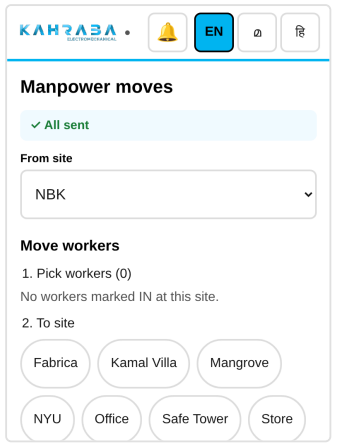

1 Home

What is waiting for you: overdue first, then today. Big buttons for every job.

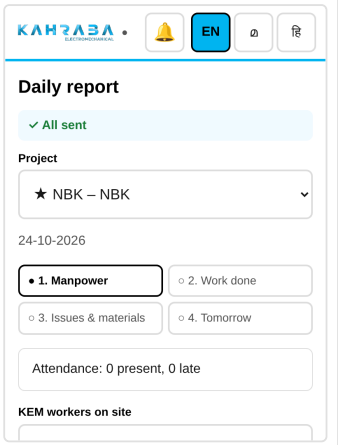

2 Attendance

List comes from Renjith's plan. Tap **IN**, **LATE** (+15 / +30 / time) or **OUT** (AL, SL, CL, A, OFF). *Mark all remaining IN*. End of day: finish time.

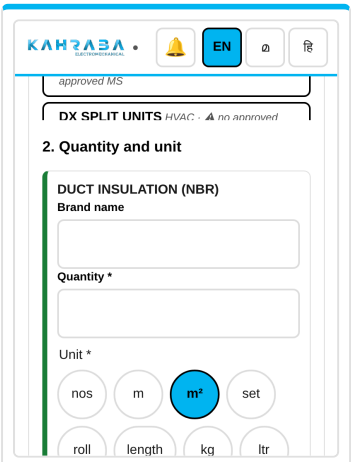

3 Move workers

Pick workers → site → reason → time. **Emergency** moves at once; others wait for Renjith. Book a vehicle in the same step.

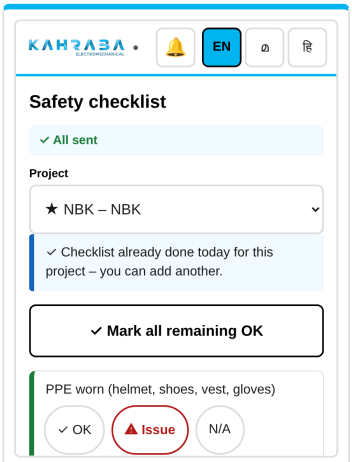

4 Daily report

4 steps: manpower · work done + photos · issues & materials · tomorrow. Renjith checks, then the SE.

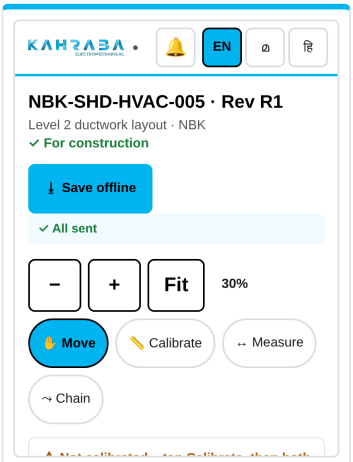

5 Material request

Pick material, enter **quantity + unit**. Brand fills in from the approved MS. No prices.

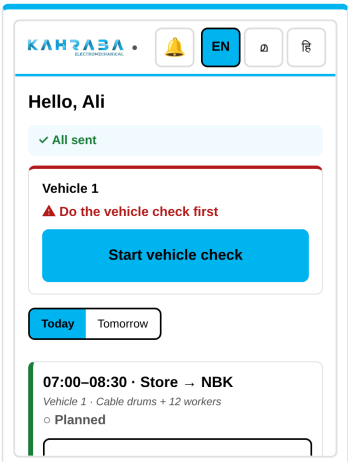

6 Safety check

Mark all remaining OK, change any problem to **Issue** with a note and a photo.

7 Drawings

Only "For construction". **+ / −** to zoom. **Calibrate** on a known dimension, then **Measure**. *Save offline* before going to site.

8 Driver

Vehicle check (photo) first. Trip: **Start** → **Delivered** (photo) → **Back at base**. Map button. Fuel / Salik / fine bill with photo.

Duties – Renjith's tasks have a deadline. Tap *Mark done* and add a photo.

🔔 – New approvals, answers and duties. Tap one to open it.

Ask design – Site queries: subject, question, photos. You get a notification when Alwin answers.

Problems? – Tell Dinga (PE / Admin). Never share your password; Admin can sign out a lost phone.
